**ARCHITECTURE IS
ONE OF THE MOST
INNOCENT, PUREST
ACTS OF DESIGN [...]
TRANSLATION OF
THE BREATHTAKING
PATH VENTURED.**

AM STUDIO A PERSONAL WAY TO SEE DESIGN

We are a multidisciplinary design firm. An Architecture, Interior Design, Urbanism, Art, and Graphic Design Lab. A fluid and organic way to construct ideas, dreams. We design from the beginning to the last smallest detail.

Our project management process is rooted in our philosophy of listening and collaboration. Engaging clients in a fluid dialogue so we can respond to their unique vision, needs, and goals is our top priority.

We do not believe in a signature style, aesthetic or market. We are interested in creating design that fits with the space's history, surroundings, lifestyle, and the proposed requirements.

We value the combination of attributes that make one place distinct from another. We strive to maintain the natural and cultural environments in order to create a unique identity for each project that is cohesive and evocative.

OGILVY & MATHER

OGILVY & MATHER

636 11TH AVE - NEW YORK [NY]

3,300.00 SF

A lobby is the first impression you get of a company... This one was embodied as a huge brand stamp that says: "This building is us; come inside and be part of our world".

The striking simplicity and strength of a dual-colored space within a large-scale space becomes a complex 3D signature composition where the letters break into pieces.

The brutal design reminds one that Ogilvy & Mather may be a big company made up of thousands of people but, at the end of the day, all of them collaborate as one.

GRAMERCY PARK APARTMENT
DE CASTRO & HERNANDEZ
NEW YORK [NY]
2,000.00 SF

In hopes of creating a conversation between the present and the past - this classic Gramercy Park apartment transformation elevates the residential experience with both modern insights of design combined with recognition of the neighborhood's past.

The entrance leads into a vast public area of a connected kitchen - dining room - living room, allowing views to the historic park from both areas. Functioning as a lamp for the entire area, the ceiling illuminates and unites while also being the element distinguishing the three spaces by ceiling height.

Everything is being custom made for the apartment: kitchen cabinetry with high end appliances, floor to ceiling master closet, window volume with radiator benches, three paneled window for the guest bedroom, two sink master bathroom with marble walls...

Crisp, sleek, lines navigate the home allowing through simple yet specific furniture structures.

MISS [OFF]
THE HENDRENS
NEW YORK [NY]
1,500.00 SF

Two piece project in the same color and material palette using the purest nyc apartment style.

The first space serves as an entrance to two apartments that belong to the same family executed with the maximum possible functionality and showing their naked soul to the visitors that experience it.

The guest is taken by a furniture-bench that crosses the length of the space serving as storage space. A lamp, parallel to the bench, collects coats and lights up the volume. Finishing the space is a "fresco painting" on the ceiling which depicts the essences of its owners.

Public Spaces
Entrance - Hall - Hallway

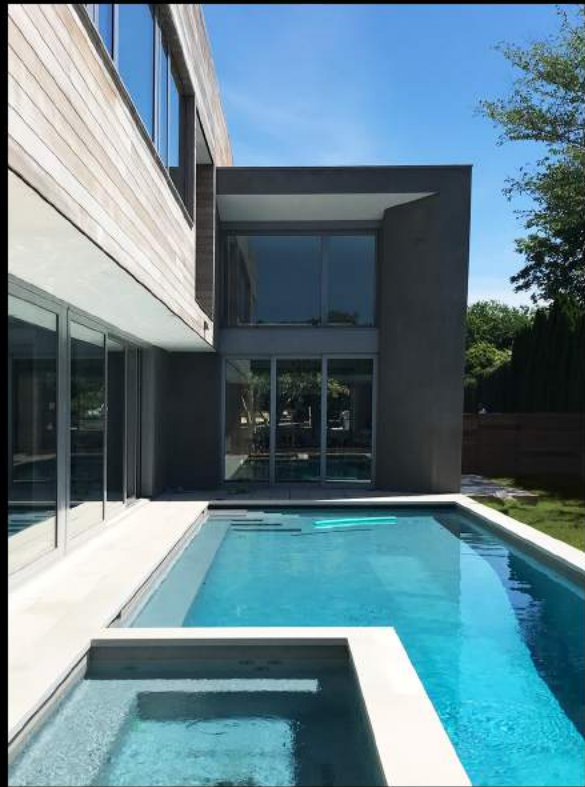

The second part of this project is a multi-functional space that serves as an apartments.

The floorplan is divided in the easiest and most functional way possible: the first big space houses all the public areas (living room, dining room, kitchen, pantry, and a half bathroom); and the second one the private spaces (master bedroom and main bathroom).

OPEN HOUSE
MR & MRS X
AMAGANSETT [NY]
8,500.00 SF

A two-story modern home that offers a luxurious summer retreat with an emphasis in entertaining and having a good vacation time.

The home is organized around the pool, that can be seen from most of the rooms of the house, while the large double-height entrance hall welcomes owners and guests and serves as a connector with the rest of the areas.

The house is comprised of three master bedrooms, two guest suites, a den, an open kitchen-dining room, a bar, a playroom, a theatre room, staff quarters, outdoor areas, rooftop...

BE | BODY EVOLVED
CC & DEE
33 BOND ST , NEW YORK [NY]
1,800.00 SF

Offering luxury training and physical therapy, Body Evolved is a modern take on movement coaching, centered around over-all wellness.

AM Studio streamlines functionality and design by providing multidisciplinary services: identity-branding, interior design, architecture, and fine art. The brass framed entry window with unique pendant lamps is used as a collective advertising board- foreground to the interior 13 ft. tall logo that welcomes clients to this open training space.

Inside lies a multifunctional fluid space encompassing three main areas:

- Beginning with the entry lobby + retail section offers a relaxing waiting area.

Main Space
Entrance - Lounge Area

- The personal training section follows with all branded full set equipment for strength and cardio work.

- Finally, therapy tables and tools combined give the most advanced techniques in the field, backlit by sconces reminiscent of the entryway.

The secondary rooms allow for clients' experience to be elevated unexpectedly: private lockers, luxury custom bathrooms + shower complete with top line amenities, and soft changing room. The whole space is unified with materials, textures, and color palette: white oak, black rubber floor, brass metal details & white+grey function as the base canvas on which the rest of the colors are combined.

PERSEPOLIS RESIDENCE

MR & MRS X
NEW YORK [NY]
2,000.00 SF

A renovation project is usually faced two different ways: the easiest and less expensive one is decorating the spaces and giving it a new look; the second option is getting involved in a real interior design project where construction gets involved in the process.

We believe that there's a third one. The designer creates spaces taking the client as a base to the point that every single piece of furniture is customized and even the artwork becomes commissioned.

We are truly proud of our vision for Persepolis Residence. A modern persian home based on each of the five dwellers and the way they live their life. Mixing their deep sense of culture, their colorful personalities, and their flare for the arts while keeping a practical fence around the fact that three of them are under the age of seven.
